

Time is Spine

ANZSCoS 2021 – Pre-Conference Workshop

Wednesday 27 October 2021 – 9:30AM - 12:30PM (AEDT)

This workshop is aimed at Spine surgeons, Orthopaedic Trainees, Rehabilitation Physicians, Rehabilitation Trainees, Nursing, Physiotherapists, Occupational Therapists and Clinical Psychologists.

The topics covered are to outline the current evidence based management in Acute SCI and hopefully will lay the foundation for a good debate and address controversies.

Note: Timings shown are in AEDT.

Start	Finish	SPEAKER NAME	PRESENTATION TITLE
9:30	9:35	Dr Xianghu Xiong / Kris Dalzell	Welcome and workshop open – Session Chairs
9:35	9:55	Professor Michael Fehlings	The role and timing of surgical intervention for acute spinal cord injury Q&A - 5 minutes
9:55	10:05	Patrick O’Kane & Sarah Fitzgerald	Physiotherapy considerations in Acute SCI
10:05	10:15	Tom Inglis	Surgical considerations in geriatric SCI
10:15	10:25	Angela Watts	Nursing considerations in acute SCI
10:25	10:32	Panel Session from presenters above – Dr Xianghu Xiong to facilitate	
10:32	10:42	Kris Dalzell	Surgical considerations in Tumour surgery with SC compression
10:42	10:57	Dr Harvinder Singh Chhabra	Consensus & Controversies in management of Pott’s spine
10:57	11:07	Richard Storey	Closed reduction in acute Fracture dislocation of C SPINE
11:07	11:17	Dr Ralph Stanford	Surgical considerations in Cervical spine Fracture Dislocations (Front/Back/both front and Back)
11:17	11:24	Panel Session from presenters above – Kris Dalzell to facilitate	
11:24	11:39	Short Break - 15 minutes	
11:39	11:49	Tom Marshall	Role of “hope “in acute SCI
11:49	11:59	Paul Phillips	Challenging cases of upper Cervical spine
11:59	12:09	Alpesh Patel	MAP augmentation Controversies
12:09	12:19	Dr Xianghu Xiong	Neurological examination and Prognostication in SCI
12:19	12:26	Panel Session from presenters above – Dr Xianghu Xiong to facilitate	
12:26	12:30	Session Close Dr Xianghu Xiong / Kris Dalzell
