

Dr Charlotte Hespe - Endometriosis in Primary Care

What does care of endometriosis in primary care look like?

What should you expect when being cared for by your GP? What are realistic expectations and what should I be asking for?

What is a "Patient centred medical home" and what does this mean for "me", my family and my doctors?

Can we try and improve the timely diagnosis of endometriosis and access to evidence based care?

Let's look at how we achieve better outcomes and the management of endometriosis?
